Troy University 2009-10 Senior Survey Report

Executive Summary

The purpose of this survey is to identify student satisfaction with their experiences at Troy University, recognize student development as a result of their Troy University education, and identify areas that need to be improved. Data collected in this survey are used to help the

year is that in the prior year graduate students were invited to participate in the survey. Without the 553 graduate students who participated in the survey last year the number of participants from last year would have been 2369. Graduate students were not considered as seniors and were not invited to participate in this year's survey. Even though the response rate was lower this year, the analysis of demographic factors was almost identical to the prior year. 7151 students were identified as seniors and were sent the invitation to participate email which resulted in a 25% response rate. The initial invitation to participate email was sent on 11/10/09. Reminder emails were sent to non-respondents on 11/16/09 and 12/1/09. Survey participation was submitted by hard copy from 71 students who classified themselves as Asian/Pacific Islander and were seniors at a Global Campus site. The characteristics of the survey respondents were determined to be similar to those of the total graduates of the year although some variation existed. Therefore, the responses to the survey could be considered representative of the ideas and opinions of the students who were graduating in during the 2009-2010 Academic Year.

It should be noted that more data was received from Global Campus sites in Asia for this 2009/2010 Senior Survey than had been submitted in the past. For the 09/10 survey 5.2% of respondents indicated "Asian/Pacific Islander" as their ethnicity while for the 08/09 survey only 1.9% of respondents were of that ethnicity. Report Six in this document presents a comparison of intellectual development and leadership development items by ethnicity.

The *Senior Survey* has been administered consecutively for five years. The results are almost parallel from each year. Over the past five years students have consistently rated the factor of leadership development the highest and student services the lowest. The chart and table below presents the mean scores for each factor measured by the *Senior Survey*. Each factor is measured on a scale with 1 being low satisfaction and 5 being high satisfaction.

Demographic information

Of the 1771, respondents, 64% were female, 55% were White compared to 33% Black and 72% were aged 25 or older. While the majority (94%) were US citizens, the 6% international student participants represented 16 countries in various parts of the world. The largest percentage of respondents were from the eCampus, 35%. About 24% of the respondents were graduating from Troy Campus, 12% were Global Campus students, and the remainder of

the seniors were from Dothan (10%), Montgomery (9%) and Phenix City (8%). Additionally, Global Campus students responded from 32 different sites.

Academic information

Academically, 96% of the respondents were expecting to receive a Bachelor's degree and 4% were expecting to receive an Associate'

Eighteen items related to knowledge, skills, and abilities were provided for the students

Similar to the ratings on ***Intellectual Development***, ratings on ***Leadership Development*** were also strong but were showing a declining trend over the past four years. As illustrated in

- Student ratings for quality of education and academic support services (Report 2 – Q28)

Eighteen items were measured in terms of what students thought about the quality of education and academic support services at Troy University. Again a factor analysis identified two factors, which include ***Academic Support Services*** and ***Instruction***. The factor ***Instruction***, or ***Academics***, includes areas relating to instruction and faculty and has an average rating of 3.93 for 09 – 10, 3.96 for 08 – 09, 3.97 for 07 – 08, 4.03 for 06-07 and 4.02 for 05-06 respondents on a 5-point scale with 1 as "Poor" and 5 as "Excellent."

As indicated in the table above (Table 3), the majority of the students rated the areas related to ***Instruction*** as either "Excellent" or "Good," which is about the same as found in the previous year's survey. Two areas, however, were rated blow 4.00 in 09-10, with the ratings on IMPACT/New Student Orientation Program and Academic Advising being the lowest. Further examination by campus (Table 4) found that eCampus students regularly ranked items in the factor of instruction higher than students from other campuses.

Student Organization information

Seniors were asked to identify which student organizations they belong to while attending Troy University. The vast majority of seniors who participated in this survey (n=1122, 63%) reported that they did not participate in any student organizations. The Honor Society was reported as the student organization with the most participation. Further analysis by campus revealed that the Troy Campus has the highest number of students participating in student organizations.

Table 15

READING HABITS

As a measurement of the Quality Enhancement Plan of Troy University graduating seniors were ask to report factors about their reading habits. Seniors were asked about the degree to which their involvement in reading has: (1) Enhanced their ability to understand connections between the various materials they read, and (2) Enhanced they awareness of other people's political and social view points. As is shown in tables 17 and 18 the greatest level of enhancement from reading was reported from students of the Montgomery campus and the College of Arts and Sciences.

3. However, the *Senior Survey's* satisfaction measures have identified areas that need to be improved, especially in the areas of ***Academic Support Services*** and ***Student Services***. Because many of the weak areas found in the previous four year's results still remain the same in the AY 09-10 survey results, University personnel (administrators, faculty, and staff) need to pay more attention to assessment information and use assessment results to improve University services.

4. Furthermore, based on survey responses, faculty should do more to help students in their career planning, the University should be more responsive to student needs, efforts should be made to raise student intellectual caliber, and more courses should be offered each term so that students can graduate as they have planned.

5. While building plans for improvement for areas in which students are less satisfied, University personnel need to be aware that different factors may contribute to the ratings; therefore, further studies should be conducted to look more closely into the areas of need before decisions for improvement are made or actions are taken.

6. The only campus with substantial participation in student organizations and community service was the Troy Campus. Efforts should be considered to foster participation in student organizations and community service which would appropriate for the students on other campuses.

2009 - 2010 SENIOR SURVEY

Troy University Senior Survey

Please complete this survey and submit it online. The information you provide will help Troy University improve and enhance its programs and services so that the University can better serve the educational needs of its students. Your responses will be kept strictly confidential and only group data will be reported. We thank you in advance for your participation in this survey.

All students who are classified as "seniors" were sent an email inviting them to participate in this survey. However, some students are classified as "seniors" for more than one academic year. If you plan on graduating later than the Summer Semester of 2009, do not complete this survey. You will be offered another chance during the next academic year.
