Major Findings

The *Troy University Graduating Student Survey 2007 – 08* started in Fall 2007 and continued through Spring 2008. During this time, students who intended to graduate in Fall

Employment and plan after graduation

Approximately 82% of the respondents reported that they worked while attending Troy University with about 65% working full-time (40 hours or over). Upon graduation, about 40% were planning to work in areas related to their majors at Troy University, 20% would continue to work in the jobs they had already, and approximately 29% were going to continue their education. The survey also found that about 40% of the respondents would pull8 U

As indicated in the table above (Table 4), the majority of the students rated the areas related to ***Instruction*** as either "Excellent" or "Good," which is about the same as found in the previous two year's survey. Four areas, however, were rated blow 4.00 in 07-08, with the ratings on IMPACT/New Student Orientation Program and Academic Advising being the lowest. Further examination by campus (Table 4) found that eCampus students consistently ranked items in the factor of instruction higher than students from other campuses.

For Parking Facilities, approximately 30% of the students indicated that they were "Very Dissatisfied" or "Dissatisfied" for the past three years. Further analysis found that Troy and Montgomery students were very dissatisfied with Parking Facilities and their satisfaction ratings were well below 3.00. Table 10 shows mean ratings on each of the areas related to ***Student Services***. Further studies may be needed before actions are taken for improvement.

- Student perceptions about Troy University (Report 4 – Q26)

In this section, 10 statements regarding the University in a broad sense were provided for the students to rate their agreement. As indicated in Table 11 (derived from Report 4), over 80% of the students "Agree" or "Strongly Agree" with the first 4 statements, indicating strong satisfaction with the academic programs and confirming the findings in Table 3 above (derived from Report 2).

The lowest ratings in this section were "The University faculty were helpful with my career plan" (61% Agree; M=3.67) and "Troy University is responsive to the needs of its students" (65% Agree; M=3.70). (These were also the lowest rated areas in the previous two year's survey.) Course offering and student intellectual caliber were rated low as well.

The following table (Table 12) shows a breakdown by campus for the four lowest rated areas under ***Student Perceptions***.

Implications

1. Overall, Troy University's graduating students were satisfied with their college experiences over the years they studied at TROY. In particular, the students were satisfied with their educational experiences at the University – instruction, the quality of education, and their academic programs, specifically. Furthermore, the students thought highly of their intellectual development and leadership development as a result of their education at Troy University.

2. The survey findings that for the past three years over 85% of the graduating students would attend Troy University and enroll in the same programs again if they started over and that more than 90% would recommend Troy University and their academic programs strongly suggest that Troy University was effective in offering quality education to its students.

3. However, the *Graduating Student Survey's* satisfaction measures have identified areas that need to be improved, especially in the areas of ***Academic Support Services*** and ***Student Services***. Because many of the weak areas found in the previous two year's results still remain the same in the 07-08 survey results, University personnel (administrators, faculty, and staff) need to pay more attention to assessment information and use assessment results to improve University services.

4. Furthermore, based on survey responses, faculty should do more to help students in their career planning, the University should be more responsive to student needs, efforts should be made to raise student intellectual caliber, and more courses should be offered each term so that students can graduate as they have planned.

5. While building plans for improvement for areas in which students are less satisfied, University personnel need to be aware that different factors may contribute to the ratings; therefore, further studies should be conducted to look more closely into the areas of need before decisions for improvement are made or actions are taken.

	International Putra college is a potential university. To achieve this goal or vision, those facilities that provided must be satisfied students, like computer lab's computer and speed of internet. If music room can be modified a bit and make it as an entertainment place, students will not feel bored during their college life. To attract more students to study in IPC, these things are very important. Add more extra curriculum activities to students, music room can operate as a place like a real bar(no alcoholic), so that students can relax there.	1	.9	.9	93.9
